

Jay Arnold

Staff Product Designer

615-498-3784 · jaymillerarnold@gmail.com · Durango, CO

Product designer with 15+ years of experience taking complex problems from research through to shipped product. Most recently focused on fintech, CRE, and AI product design.

WORK EXPERIENCE

Built Technologies

Staff Product Designer

Jan 2025 - Present

- Leading design for the company's AI initiative across document extraction, project and deal onboarding, and conversational UX
- Working across product, engineering, and business teams to set design direction and ship cohesive experiences
- Building design patterns and systems that work across multiple product areas

Senior Product Designer

Mar 2020 - Jan 2025

- Designed two new business units from the ground up, owning research through final delivery
- Worked closely with PMs, engineers, and client success to understand problems and ship solutions
- Created and ran a customer research program to identify gaps and inform the product roadmap
- Mentored junior and mid-level designers and helped grow the design practice at the company
- Delivered high-fidelity specs to engineering and reviewed shipped software to catch inconsistencies

Quore

Product Designer

Mar 2019 - Mar 2020

- Introduced and formalized user research practices across the product and design team
- Ran design workshops and sketching sessions to get teams aligned early in the process
- Conducted customer interviews and usability tests and turned findings into clear recommendations
- Delivered journey maps, user flows, wireframes, and prototypes across multiple projects

5by5 A Change Agency

Director of Digital

Sep 2017 - Mar 2019

- Managed a team of 4 developers and oversaw all digital production
- Led user research and design work across every client project
- Participated in strategy, planning, and proposal meetings with clients and senior leadership

Jay Arnold Creative

Owner & Design Lead

Apr 2015 - Sep 2017

- Ran a freelance design practice covering discovery, creative direction, and production
- Worked with developers, project managers, writers, and photographers to deliver client projects

iDesign, Inc

Interactive Art Director

May 2007 - Apr 2015

- Led design and user discovery for a range of interactive client projects
- Managed a developer team to make sure the finished product matched the design
